Beautiful work! I love my new kitchen and bathroom floors done with natural stone. Very professional and reasonably priced. Would refer JMV to anyone wanting a beautiful job done right!

Bryn Neshem:

JMV did beautiful work. We had to replace glue down wood and put tile in. They were clean throughout the entire process. The pricing was honest and fair. They did work that other major companies said they weren't able to do. I have already started recommending them to people who might have floor projects in the future!

"James, the owner of JMV Wood & Tile Service is a true professional, which provides excellent workmanship. He is extremely detail oriented with an eye towards perfection. He recently installed engineer wood on my stairs and top landing. The job was superb, clean, and with lots of details. James is very respectful and a trustworthy person. He is constantly communicating with the owner and provides honest feedback. If you want an attractive wooden floor or stairs done to your home, James is the contractor to call!"

Nick Steele:

"JMV did a fantastic job on my floor repair! Not only was he EXTREMELY flexible with scheduling (had to make two separate trips), he did top notch work for a fair price. I had called at least 10 other flooring/contractors before JMV and they all refused to work on my floor or were not available for months.....if you are a busy person who needs someone to do work on your floor now, JMV is the man!!

Chris Calvert:

JMV did a great job. Professional service, competitive pricing with the big guys, and the wife finally has her dream floors. Not a paid review - just a happy customer.
